APPRECIATION LETTER

Kerala High Court initiated the e-project with the active support of the Bar Council of Kerala and the Bar Associations in the State. Following the Kerala High Court's endeavour for complete automation of judicial administration, the Bar Council had come forward with automation of their entire functional activities. I have personally verified the dash board provided by them for Advocates which is a single platform for an Advocate, in an interactive mode, to get all details related to him, maintained with the Bar Council. Apart from digitising the records, the automation work flow is in tandem with the automation works carried out by the High Court and, in turn the data maintained by the Bar Council is also integrated with the online system maintained by the High Court. This streamlines the data flow between these two entities. This remarkable achievement made by the Bar Council needs to be appreciated. I thank the Hon'ble Chairman of the Bar and all members of the Bar Council for having come forward along with the High Court for digital revolution.
